

## POST-MORTEM LOG

PROBLEM	DATE
Time to design the algorithm:	
Time to code:	
What solutions did I consider/miss?	
Analysis: Was your solution optimal?	
What triggers did I find/miss?	
Any mistakes I keep making? Any bugs I should add to the Bug List?	
What could I have done differently?	
Takeaways:	
Is there anything I should add to my cheat sheet?	
RUBRIC SELF-RATING:	
Problem solving:	
Coding:	
Verification:	
Communication:
